

COUNTING BIRDS

with Author Heidi E.Y. Stemple

Day 2: Calling Owls

Here are the 4 Owls we called today:

1. Great Horned Owl
2. Barred Owl
3. Eastern Screech Owl
4. Snowy Owl

Practice Calling the Owls (If anyone is sleeping, be your best Snowy Owl)

If you need help remembering, you can listen to their calls here:

<https://www.audubon.org/news/learn-identify-five-owls-their-calls>

Can you find other Owls?

Here are some: <https://www.youtube.com/watch?v=Jzbmj6vuMw8>

What Owls live in your area?

OWL FACTS:

Most owls are Nocturnal. That means they hunt at night and sleep during the day. Diurnal is the opposite.

Which are you?

Owls eat their prey (live food) whole. They don't chew! They don't even have teeth. When they are done, they regurgitate (throw up) an owl pellet.

Watch a cool owl pellet video:

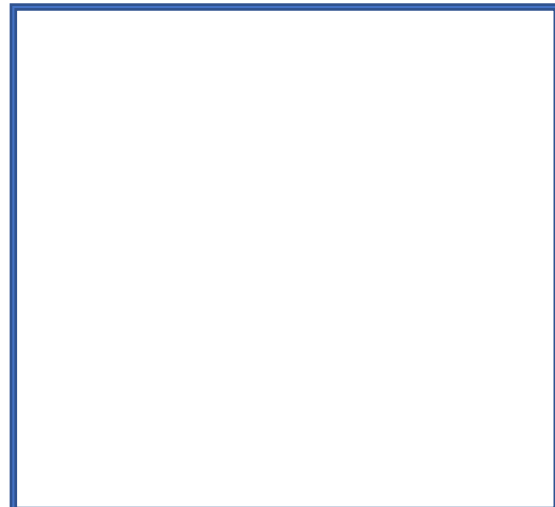

<https://www.barnowltrust.org.uk/owl-facts-for-kids/owl-pellets/>

What kinds of things do you think you could find in an owl pellet?

Owls fly almost silently because they have specialized wings and feathers.

It's their superpower.

If you could have a superpower, what would it be?

Draw your favorite owl
